

The Cyclix Networks SIP Trunk Plan

Rev—180510

The Cyclix Networks “SIP Trunk Pricing Plan” provides small and medium enterprise business users incredible price per minute rates. This plan allows the customer to take full advantage of all the features and flexibilities that SIP-Trunking offers to the world of communications when combined with an IP-PBX or VoIP enabled legacy TDM PBX.

Cyclix Networks’ industry leading redundant N-Plus™ architecture ensures your ability to communicate with your customers.

In addition to Cyclix Networks’ N-Plus™ redundant network, our failover feature allows users to route their service through alternate numbers, in the event Internet, PBX or SIP Trunks are unavailable.

The SIP Trunk Plan is an excellent choice for the small to medium size business user, and will allow the enterprise to realize significant savings.

Plan Overview

Each SIP Trunk allows you to place or receive one concurrent call.

- **No limit to the number of DID or Toll Free 800 numbers you can add!**
- **Unlimited inbound DID minutes**
- **500 Free outbound minutes per trunk, per month**.**
- **Build your own plan: Additional minutes are available—(see chart below)**

**Free minutes includes US 48 interstate, intrastate, and local calling. Minutes do not “roll over” to subsequent months. SIP Trunk service from Cyclix is offered with a minimum of four trunks.*
